ABOUT ME

Full-Stack Web Developer with 2.4 years of experience building scalable, high-performance web applications using the React.js, Node.js, Express.js. Proven expertise in JWT authentication, Redux Toolkit, RESTful APIs, Docker, Azure Active Directory, and CI/CD pipelines.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, React Flow

State Management: Redux, Redux Toolkit, Context API

Databases: MySQL (SQL)

Testing & Tools: Jest, Postman, Jira, Agile/Scrum

WORK EXPERIENCE - 2.4 Years

Sumedha Softech Pvt. Ltd.

April 2024 - April 2026

Web Developer (Full-Stack)

- Improved data fetching speed by 25% on the KomPublic platform by migrating state management to Redux Toolkit and eliminating redundant API calls.
- Integrated Azure Active Directory (Azure AD) for seamless SSO authentication.
- Built and maintained reusable, responsive UI components, ensuring consistent design and behavior across multiple production applications.
- Containerised services using Docker for consistent dev/staging/production environments, reducing environment setup.

Aaron Softech Pvt. Ltd.

Sep 2023 - Dec 2023

Intern Web Developer

- Built dynamic and responsive web applications using the MERN stack during a 4-month internship.
- Contributed to UI components using React.js, improving page load performance through code-splitting and lazy loading.

PROJECTS

KomPublic Chatbot

- Developed an AI-assisted chatbot for the KomPublic platform to help Case Managers resolve case inquiries faster.
- Integrated Azure Active Directory for seamless authentication with zero downtime during rollout.

KomPublic Municipality Case Management

- Built a platform for Danish municipalities to manage and track cases with real-time status updates.
- Improved data fetching speed by 25% using Redux Toolkit.

Activate Everywhere Chatbot

- Designed and implemented a visual chatbot builder using React Flow, enabling companies to create fully customisable conversational flows with drag-and-drop nodes.
- Built conditional logic into the node-based canvas, allowing businesses to define dynamic question-answer flows tailored to their needs.

EDUCATION

B.Tech - Artificial Intelligence & Data Science

Rajasthan Institute of Engineering and Technology, Jaipur

Oct 2020 - 2024
